

06 de August 2015

New meeting in Yellow Gumpa (monastery where refugees of Langtang are in Kathmandu) among villagers of Langtang and five NGOs to discuss the reconstruction of Langtang.

They present at the meeting: [Langtang Management and Reconstruction Committee](#), [Youth Club](#), [Solidarité Langtang](#), [Rasuwa Relief](#), Sai Om Nepal, Adida y Asia plus.

Participants were able to structure the process broader reconstruction and start coordinating action between different organizations.

To help the organization, envió al Comité de Langtang sent Comité and the other NGOs a document with some questions and proposals: [QUESTIONS AND PROPOSALS](#).

The frustrating point raised during the meeting is that the government has yet to give the land where the villagers could rebuild Langtang. Villagers must wait until the end of the monsoon to give them a place, because the government requires more studies on the potential risks in the area.

Representatives Comité of Langtang must will go Dunde again (the district capital where they decide) to further discuss possibilities and to allocate them a safe place.

At least the government has officially reopened the region and is committed to reopen the Langtang National Park trails most soon as possible.
