

2 New Design for the Reconstruction project

Our Technical support team which was lead by Om Nepal with many international Architectures hardly working for suitable and cultural with traditional style house for Langtang people. Below is the person who is working so hard to coordinates with everyone's to give better solution of houses to LANGTANGPAS. He is technical teams coordinator and committees are involved as well. If you want to be part of it pleased send your detail so we forward it to technical support teams.
